

# Low Voltage Switchboard Rescue

APS Training Group is a Registered Training Organisation (Provider No: 31588) under the Australian Skills Quality Authority and are pleased to offer this **non-accredited** course.

## **Course Outcome**

Persons conducting this course will gain knowledge about legislation relating to Low Voltage Rescue as well as risk assessments, planning for a job, general principles for rescue, first aid treatment, seeking medical assistance and high voltage installations.

A person completing this course shall also demonstrate the ability to conduct a Low Voltage Rescue of a victim and if completed in conjunction with the CPR course they shall be able to carry out Cardiopulmonary Resuscitation (CPR) as well as provide initial treatment of burns.

## **Prerequisites**

None

## **Certification**

Participants who demonstrate competency by passing both the theory and practical assessments will receive a Statement of Attendance.

**Delivery mode:** Face to face

**Where:** APS or your workplace

**Duration:** 2-4 hours depending on inclusion of CPR

**Cost:** \$ 50.00 (LVR only)  
\$ 75.00 (if conducted as part of CPR)
